## **ENGLISH**

#### POWER SUPPLY

#### **Batteries**

- Insert as indicated three alkaline batteries, type R6, UM3 or AA.
- for operation of the radio only

  Remove the batteries from the set if they are exhausted or not to be

#### Batteries contain chemical substances, so they should be disposed of properly

#### Environmental note:

- The packaging may be separated into two materials: cardboard (box) and polyethylene (bags). Please observe the local regulations regarding. the disposal of these packaging materials.
- Your set consists of materials which can be recycled and reused if disassembled by a specialized company. Ask about local regulations on recycling your óld set.
- Do not dispose of exhausted batteries with your household waste.

#### **CLOCK TIME SETTING**

The clock operates on a watch battery. When you need to replace the clock battery, remove the clock piece and take it to a jeweller or watch repairer for battery replacement.

- 1 Unscrew the clock cap to open the clock compartment.
- 2 Place your hand over the clock and gently tip the unit forwards to release the clock into your hand.
- 3 Pull and turn the clock winder to adjust the time. When the time is set, push the winder back into position.

  4 Insert the clock piece back into the compartment and replace the cap

## RADIO RECEPTION

- 1 Press the **POWER** button to switch on the radio.
- The power indicator lights up
- 2 Press **VOLUME** ▲ or ▼ once or more to adjust volume level.
- 3 Adjust FM/MW (or LW) switch to select waveband.
  4 Turn TUNING to tune to radio stations.

#### To improve reception

FM: A pigtail antenna is tucked inside the battery compartment. Open the battery door to obtain the pigtail. Extend and position the pigtail through the pigtail outlet (located on the lower edge of the battery door) before you replace the battery door securely

MW (AM or LW): The set is provided with a built-in aerial. Turn the entire set to find the best position.

- The power indicator goes out

#### **GENERAL INFORMATION**

# NOT to be immersed or put into continuous contact with water!

- Use a soft, slightly dampened chamois leather to clean the housing. Do not use any strong or corrosive cleaning agents such as thinner, benzene, etc. as these may spoil your set

- **5** Press the **POWER** button again to switch off the radio.

# IMPORTANT

- Do not expose the set to rain, moisture, or high humidity for long. periods of time, or to excessive heat e.g. heating equipment, cars arked in direct sunlight.

## TROUBLESHOOTING

If a fault occurs, first check the points listed below before taking the set for repair. If you are unable to remedy the problem by following these hints, consult your dealer or service centre.

**Warning:** Under no circumstances should you try to repair the set nis would invalidate your guarantee

#### No power

- Wrong battery polarity
- · Insert batteries correctly
- Batteries exhausted
- · Replace batteries

#### Clock inaccurate/ does not work

- Time not adjusted/ battery exhausted See CLOCK TIME SETTING

## No sound (see also No power)

- Volume is turned down
- Turn up volume

## Severe radio hum/distortion

- FM reception poor
- Extend and position the FM pigtail aerial
- Set too close to TV, computer, etc.
- Move set away from other electrical equipment

## This product complies with the radio interference requirements of the European Union

The model number is found on the bottom of the set. The production number is in the battery compartment

#### ALIMENTATION

## Piles

• Insérez les trois piles alcalines, type R6, UM3 ou AA comme indiqué, uniquement pour le fonctionnement de la radio.

Retirez les piles du compartiment si elles sont vides ou si elles n'ont

**FRANCAIS** 

pas été utilisées pendant un long moment

#### Les piles contiennent des substances chimiques, donc elles doivent être jetées selon les normes de l'environnement

#### Remarque concernant l'environnement:

- L'emballage est composé de deux matériaux: le carton (pour la boîte) et le polyéthylène (pour les sachets). Veuillez observer les réglementations locales concernant le rebut de ces matériaux d'emballage.
- Votre appareil se compose de matériaux recyclables et réutilisables après été triés par une société spécialisée. Renseignez-vous sur les réglementations locales concernant le recyclage de votre ancien
- Ne jetez pas les piles usées avec vos ordures ménagères.

#### REGLAGE DE L'HORLOGE

L'horloge fonctionne avec une batterie pour horloge. Lorsque vous devez remplacer la batterie en question, enlevez la section d'horloge et emmenez-la chez le bijoutier ou chez un horloger pour effectuer le remplacement de la batterie.

- Dévissez le couvercle de l'horloge pour ouvrir le compartiment.
   Placez l'horloge dans votre main et appuyez doucement sur l'unité pour
- faire sortir l'horloge vers l'avant.
- 3 Tirez sur le bouton et tournez pour régler l'heure. Une fois l'heure réglée, repoussez le bouton en place.
- 4 Introduisez à nouveau la section horloge dans le compartiment et remettez le couvercle bien en place.

## RECEPTEUR RADIO

- 1 Appuyez sur le bouton POWER pour allumer la radio.
- Le témoin d'alimentation s'allume
- 2 Appuyez sur **VOLUME** ▲ ou ▼ une fois ou davantage pour régler le
- 3 Mettez le sélecteur FM/MW (ou LW) en position requise pour sélectionner la longueur d'onde
- 4 Tournez sur le bouton TUNING pour rechercher les stations de radio.

**Pour améliorer la réception FM**: Une antenne flexible est insérée dans le compartiment à piles. Ouvrez le clapet du compartiment à piles pour faire sortir l'antenne flexible. Sortez et positionnez l'antenne flexible par l'orifice prévu (situé à la section inférieure du clapet) et remettez le clapet bien en place. MW (AM ou LW): L'appareil est pourvu d'une antenne intégrée. Orientez l'appareil dans tous les sens pour déterminer la meilleure position de réception.

- 5 Appuyez à nouveau sur le bouton POWER pour éteindre la radio.
- Le témoin d'alimentation s'éteint

## INFORMATIONS GÉNÉRALES

#### **IMPORTANT** NE iamais immerger ni mettre en contact permanent avec l'eau!

- Ne pas exposer l'appareil à la pluie, à la moisissure ou à l'humidité élevée pendant des périodes prolongées, ni à une chaleur excessive produite par exemple par des équipements de chauffage, des voitures stationnées en plein soleil
- Utilisez une peau de chamois douce et légèrement humide pour nettoyer le boîtier. N'utilisez pas de produits de nettoyage abrasifs ou corrosifs tels que diluants, benzènes, etc., car ces produits peuvent endommager votre appareil.

## **DEPISTAGE DES ANOMALIES**

En cas d'anomalies, contrôlez d'abord les points mentionnées sur la liste avant de faire réparer l'appareil. Si vous n'êtes pas capable de remédier au problème en suivant ces conseils, consultez votre concessionnaire ou le

Attention: N'essayez en aucun cas de réparer vous-même l'appareil, car ceci fait tomber la garantie à échéance.

## Pas d'alimentation

- Polarité incorrecte des pilesIntroduisez correctement les piles
- · Remplacez les piles

# Réglage d'horloge incorrect/ ne fonctionne pas

- Temps non réglé/ pile usée Voir RÉGLAGE DE L'HEURE

## Pas de son (voir également Pas d'alimentation)

- Le volume est faible · Augmenter le volume
- Grésillements/déformations importants

#### Faible réception FM Sortez et positionnez l'antenne flexible FM

- L'appareil se situe trop près d'un téléviseur, d'un ordinateur, etc.
- Eloignez l'appareil des autres équipements électriques

Ce produit répond aux normes d'interférence radio de l'Union Européenne. Le numéro du modèle est indiqué à la section inférieure de l'appareil. Le numéro de production est indiqué dans le compartiment à piles

Philips Electronics Australia Limited ACN 008 445 743, 3 Figtree Drive Homebush NSW 2140

Version 2, 08/97, FPCP-030

#### SUMINISTRO DE ENERGÍA

## Pilas

- Para hacer funcionar sólo la radio inserte, como se indica, tres pilas alcalinas tipo R6, UM3 o AA
- Si las pilas están desgastadas o no va a utilizar el aparato durante mucho tiempo, sáquelas del aparato

Las pilas contienen sustancias químicas peligrosas por lo que deberá tirarlas de acuerdo a la normativa vigente.

#### Advertencia medioambiental:

- El embalaje puede separarse en dos materiales: cartón (la caja) y polietileno (las bolsas). Cuando tire estos materiales de embalaje hágalo conforme a la normativa de su localidad.
- Su aparato contiene materiales que se pueden reciclar y utilizar posteriormente si los lleva para que los desmonte una compañía especializada. Infórmese sobre la normativa referente a aparatos viejos
- No tire las pilas desgastadas a la basura de su casa.

## PARA AJUSTAR EL RELOJ

El reloj funciona con una pila de reloj. Cuando necesite reemplazarla, desmonte el reloj y llévelo al joyero o relojero para que se la cambie.

- hora, pulse la corona en su posición

1 Destornille la tapa del reloj para abrir el compartimiento

- 2 Ponga una mano sobre el reloj y vuelque la unidad con cuidado hacia
- delante para que el reloj caiga sobre su mano.

  3 Para poner el reloj en hora, tire de la corona y gírela. Una vez puesto en
- 4 Coloque el reloj en el compartimiento y fije la tapa

# **RECEPTOR DE RADIO**

- 1 Presione el botón de POWER para encender la radio.
- El indicador de potencia se enciende
- 2 Presione **VOLUME** ▲ o ▼ una o más veces para ajustar el volumen
- 3 Para seleccionar la banda de ondas, ajuste el botón FM/MW (o LW). 4 De vueltas a la rueda de TUNING para sintonizar las emisoras

#### Para meiorar la recepción

FM: Dentro del compartimiento de las pilas encontrará una antena flexible. Abra la tapa de las pilas para sacar la antena. Extiéndala y colóquela a través de la salida (situada en el borde inferior de la tapa del compartimiento) antes de proceder al cierre.

MW (AM o LW): El aparato posee una antena incorporada. Mueva el aparato completo hasta conseguir la mejor posición.

- 5 Presione el botón POWER de nuevo para apagar la radio.
- El indicador de potencia se apaga

#### INFORMACIÓN GENERAL

#### **IMPORTANTE** ¡NO se debe sumergir el aparato en el agua o dejarlo en contacto prolongado con la misma!

- No exponga el aparato a la lluvia, condensación o niveles altos de humedad durante un tiempo prolongado, o al calor excesivo, ej.
- calefactores, coches aparcados al sol, etc. Utilice una gamuza suave y ligeramente humedecida para limpiar la cubierta. No utilice productos de limpieza fuertes o corrosivos como disolventes, bencina, etc. ya que éstos pueden dañarlo.

#### **POWER SUPPLY**

#### **Batteries**

- Insert as indicated three alkaline batteries, type R6, UM3 or AA.
- for operation of the radio only

  Remove the batteries from the set if they are exhausted or not to be

#### Batteries contain chemical substances, so they should be disposed of properly

## Environmental note:

- The packaging may be separated into two materials: cardboard (box) and polyethylene (bags). Please observe the local regulations regarding the disposal of these packaging materials.
- Your set consists of materials which can be recycled and reused if disassembled by a specialized company. Ask about local regulations on recycling your old set.
- Do not dispose of exhausted batteries with your household waste.

## **CLOCK TIME SETTING**

The clock operates on a watch battery. When you need to replace the clock battery, remove the clock piece and take it to a jeweller or watch repairer for battery replacement.

- 1 Unscrew the clock cap to open the clock compartment Place your hand over the clock and gently tip the unit forwards to
- release the clock into your hand. 3 Pull and turn the clock winder to adjust the time. When the time is set,
- push the winder back into position. 4 Insert the clock piece back into the compartment and replace the cap
- tightly

# **RADIO RECEPTION**

- 1 Press the POWER button to switch on the radio. The power indicator lights up
  Press **VOLUME** ▲ or ▼ once or more to adjust volume level.

- Adjust FM/MW (or LW) switch to select waveband.
- 4 Turn TUNING to tune to radio stations.

## To improve reception

FM: A pigtail antenna is tucked inside the battery compartment. Open the battery door to obtain the pigtail. Extend and position the pigtail through the pigtail outlet (located on the lower edge of the battery door) before you replace the battery door securely.

MW (AM or LW): The set is provided with a built-in aerial. Turn the entire set to find the best position.

- 5 Press the POWER button again to switch off the radio The power indicator goes out.

# **GENERAL INFORMATION**

## **IMPORTANT** NOT to be immersed or put into continuous contact with water!

- Do not expose the set to rain, moisture, or high humidity for long periods of time, or to excessive heat e.g. heating equipment, cars
- Use a soft, slightly dampened chamois leather to clean the housing. Do not use any strong or corrosive cleaning agents such as thinner. benzene, etc. as these may spoil your set.

# **PROBLEMAS Y SOLUCIONES**

Si ocurre un fallo, antes de llevar el aparato a reparar, siga los consejos que le damos a continuación. Si, después de seguir los conseios no consigue solucionar el problema, póngase en contacto con su distribuidor

**Advertencia:** No debe intentar, bajo ningún pretexto, reparar el aparato Vd. mismo, ya que si lo hace, invalidará su garantía.

- Las pilas están mal colocadas (polaridad equivocada)
- · Inserte las pilas correctamente
- Las pilas están gastadas
- Las pilas están gastadas

#### El reloj no da la hora exacta / no funciona

- No se ha fijado la hora / la pila está gastada Vea la sección PARA AJUSTAR EL ŘELOJ
- No hay sonido (vea también No se enciende) - El volumen está demasiado bajo

# · Suba el volumen

#### Acusada distorsión/zumbido en la radio

- Mala recepción de FM
- Extienda y reposicione la antena flexible de FM El aparato está demasiado cerca de la televisión o del ordenador, etc.
- Posícione el aparato a un lugar alejado de equipos eléctricos.

Este producto cumple con las normas de radiointerferencia de la Unión Europea.

El número del modelo se halla en la parte inferior del aparato El número de producción está en el compartimiento de las pilas

#### **TROUBLESHOOTING**

If a fault occurs, first check the points listed below before taking the set for repair. If you are unable to remedy the problem by following these hints, onsult your dealer or service centre.

Warning: Under no circumstances should you try to repair the set yourself, as this would invalidate your guarantee.

#### No power

- Wrong battery polarity
- Insert batteries correctly
- Batteries exhausted
- Replace batteries

## Clock inaccurate/ does not work

- Time not adjusted/battery exhausted
- See CLOCK TIME SETTING

## No sound (see also No power)

- Volume is turned down
- Turn up volume

#### Severe radio hum/distortion

- FM reception poor
- Extend and position the FM pigtail aerial
- Set too close to TV, computer, etc
- Move set away from other electrical equipment

This product complies with the radio interference requirements of the European Union

> The model number is found on the bottom of the set. The production number is in the battery compartment
